# IMPORTANT SAFEGUARDS

When using electrical appliances, basic safety precautions should always be followed, including the following:

- **Read all instructions.**
- To protect against risk of electrical shock, do not immerse body mixer or cord in the water or other liquid. If body mixer or cord falls into liquid, unplug the cord from outlet immediately. Do not reach into the liquid.
- Close supervision is necessary when mixer is used by or near children.
- Unplug from outlet when not in use, before putting on or taking off parts and before cleaning.
- Avoid contacting moving parts. Keep hands, hair, clothing, as well as spatulas and other utensils away from beaters or dough hooks during operation to reduce risk of injury to persons, and/or damage to the mixer.
- Keep hands and utensils out of container to reduce the risk of injury to persons or damage the mixer.
- Do not operate appliance with a damaged cord or plug, or after the appliance malfunctions or is dropped or damaged in any manner. Call our toll-free customer assistance number for information on examination, repair, or adjustment.
- The use of accessories or services not recommended or provided by the manufacturer may cause fire, electrical shock or injury.
- Do not use outdoors or in a damp area.
- Do not let the cord hang over edge of table or counter or touch hot surfaces.
- Remove the beaters or dough hooks from mixer before washing.
- Do not place mixer on or near a hot burner (gas or electric).
- Do not use appliance for other than intended use.
- Do not continuously use the mixer longer than 5 minutes at one time.
- Do not fill the mixing container more than 90% of its capacity.
- Do not mix hot ingredients.
- Never add to container while appliance operating.
- The whisk should be used without any other attachment.

## SAVE THESE INSTRUCTIONS!

# ADDITIONAL SAFEGUARDS

This appliance is for **HOUSEHOLD USE ONLY**.

**DO NOT OPERATE APPLIANCE IF THE LINE CORD SHOWS ANY DAMAGE OR IF APPLIANCE WORKS INTERMITTENTLY OR STOPS WORKING ENTIRELY.**

## **EXTENSION CORDS**

A short power-supply cord is to be provided to reduce the risk resulting from becoming entangled in or tripping over a longer cord. Longer detachable power-supply cords or extension cords are available and may be used if care is exercised in their use. If a longer detachable power-supply cord or extension cord is used,

- 1) The marked electrical rating of the cord set or extension cord should be at least as great as the electrical rating of the appliance, and
- 2) The longer cord should be arranged so that it will not drape over the countertop or tabletop where it can be tripped over, snagged, or pulled on unintentionally (especially by children).

## **POLARIZED PLUG**

This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit into a polarized outlet only one way. If the plug does not fit fully into the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to modify the plug in any way.

# OPERATION

## Before first use

- Remove all packaging materials, labels and/or stickers from your hand mixer.
- Clean your hand mixer thoroughly before using for the first time (↳ Cleaning). The hand mixer must not be connected to power during cleaning (ill. (a)).

**Warning:** Do not immerse the hand mixer in water or any liquids. This may cause electric shock or damage the appliance.

## Operating instructions

Before plugging in the hand mixer, check that the electrical circuit is not overloaded with other appliances.

- Insert the desired attachment (**11 to 13**) with the collar disc (**14**) into the bigger right opening. Push until it sits safely in place (ill. (b)).

**Warning:** Attachments should be used as a set (2 dough hooks or 2 beaters or 1 whisk). Do not mix attachments.

- Insert the other attachment (**11 to 12**) into the smaller left opening. Push until it sits safely in place (ill. (c)).
- Fill ingredients you want to mix into a bowl. The heel stand (**8**) lends support so that the hand mixer will not slide off the bowl while the mixer is switched off (ill. (d)).

**Note:** The mixer can also rest on the heel stand (**8**) during periods of non-use, for example, when you are adding ingredients to the mixture. However, never place the mixer on the heel stand (**8**) while the appliance is switched on. Also, make sure that the bowl on which edge the mixer is resting on will not fall over.

- Connect the hand mixer plug (**10**) to its socket (ill. (e)). Connect the power plug (**7**) with a wall outlet.
- Press **slow start** button (**2**) (↳ Slow start) and the LED display (**3**) lights up.
- Press **on/off** button (**4**) to switch the hand mixer on.
- Thoroughly mix the ingredients.
- Press **on/off** button (**4**) again to switch the hand mixer off.

## Slow start

The slow start function is on by default. When the mixer is turned on with the slow start function active, the inserted accessories (**11 to 13**) start spinning very slowly to prevent ingredients from splattering.

# OPERATION

- To switch off slow start press **slow start** button **(2)**. Deactivating slow start comes in handy when thick doughs that will not splatter are being mixed.

## Speed setting

- There are 6 speed settings available. The speed can be adjusted anytime by pressing the ⊕/⊖ buttons **(5, 6)**:  
Press ⊕ button **(5)**: increase speed  
Press ⊖ button **(6)**: decrease speed
- The selected speed setting is shown in the display **(3)**.

# OPERATION

## Speed setting cycles

- The speed adjustment can be set in cycles, when the appliance is in stand-by mode.

Press repeatedly	Cycle
⊕ (6)	1, 2, 3, 4, 5, (6), 5, 4, 3, 2, 1
⊖ (1)	6, 5, 4, 3, 2, (1), 2, 3, 4, 5, 6

- If the appliance is operated, the speed setting can only be set from 1-6 or 6-1 without cycling. This way strong vibrations are avoided.

Press repeatedly	Cycle
⊕ (1)	1, 2, 3, 4, 5, 6
⊖ (6)	6, 5, 4, 3, 2, 1

## Removing attachments

- Press **on/off** button (4) to turn off the hand mixer. Remove the attachments (11 to 13) from the bowl.

- Press the **eject** button (1) to release the attachments (11 to 13) from the hand mixer (ill. f).

# OPERATION

- The whisk attachment **(13)** can be attached at either opening. Press **eject** button **(1)** to release it after use.

Attachment		Use
Beaters <b>(11)</b>		<ul style="list-style-type: none"><li>• Whipping cream</li></ul>
Dough hooks <b>(12)</b>		<ul style="list-style-type: none"><li>• Mixing heavy batters like bread or pizza batters</li></ul>
Whisk <b>(13)</b>		<ul style="list-style-type: none"><li>• Mixing thick batters</li></ul>

**Hint:** Operate the hand mixer for a short time only. Press the  **on/off** button **(4)** once the perfect consistency is reached.

**Warning:** Always turn the hand mixer off and unplug when not in use.

# CLEANING

Clean the hand mixer after every use. This appliance contains no user serviceable parts and requires little maintenance. Leave any servicing or repairs to qualified personnel.

- Clean the outside of the hand mixer with a damp soft cloth.
- Clean the attachments **(11 to 13)** thoroughly after each use. The attachments are suitable for use in a dishwasher.
- Do not use abrasive cleansers.

**WARNING:** Never immerse the hand mixer in water or other liquids (*ill.* ).

## Storage

Clean and dry all parts before storing. Store the hand mixer in its storage case **(15)** or in a clean, dry place. Never wrap the cord **(7)** around the hand mixer.
